Power Pad Ⅱ™ DCL 9900
Assembly Instructions

Step 1. Carefully unpack **Power Pad Ⅱ™** and all components.

Step 2. Place the **outlets** upside down and carefully attach the **self adhesive** of the **rubber pads** to the holes on the bottom of the **Power Pad Ⅱ™** (optional)**.**
See **Figure 1.**

Step 3. Optional **data cable** is included, put the **plastic strap A** and **plastic strap B** together with **data cable** inserted.
See **Figure 2-A.**
(It will look like the drawing shown in **Figure 2-B**).

Step 4. Place the **Power Pad Ⅱ™** on the **table top**, line up holes on **table** with the holes in **metal bracket** and also holes in **plastic straps** (optional)**.** See **Figure 3.**
Tighten the **screws** to secure the **Power Pad Ⅱ™.**
(It will look like the drawing shown in **Figure 4**).

**Tips:** We recommend the **plastic straps** be mounted on right side as shown.
