IMPORTANT ORDERING INFORMATION Please read before ordering

UMBRELLA HOLES: All table tops are shipped without an umbrella hole, unless specified by buyer.

WARRANTY: One (1) year from the date of purchase to the original buyer. See limited warranty under product warranty page.

SPECIFICATIONS: All fiberglass products are manufactured by using the spray-up contact molding method. Liquid polyester resin with chopped glass fiber is applied to a plywood core. The high quality surface is obtained by the application of marine grade gelcoat on the mold surface.

SPECIAL ORDERS: Fire Retardant Tops are available conforming to ASTM-D 635 Flame Test under ASTM 162 (radiant panel) and ASTM-E-84 (tunnel test).

Note: There is a up charge when ordering fire retardant tops.

CABANAS AND DAY BEDS CONTRACT ALUMINUM

VIP Cabanas, Pool Cabanas, Day Beds, Beach Cabanas

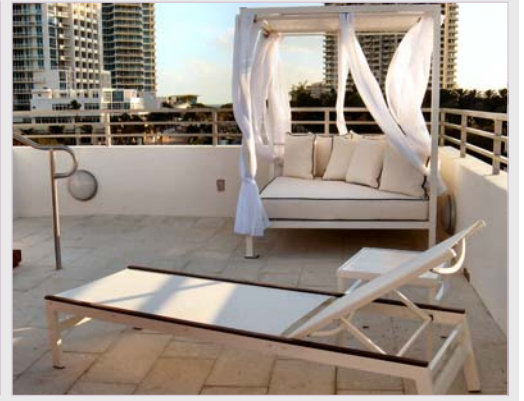

AVM manufactures a wide selection of Standard Designs of Outdoor Cabanas or we can also provide our customers with custom fabrication of any of our Custom Fit Cabanas, Day Beds. Our Collection of Cabanas and Day Beds are elegant and rich in appearance and provide a private retreat to your guests' poolside enjoyment. The Cabana concept offers additional features that keep guests comfortable when the sun heats up providing satisfaction morning, noon and night. The special design of our Cabana's Canopy and Privacy Draperies can withstand the brutal weather conditions encountered in Beachfront Resorts. These structures have become an attractive center piece to the recreation and entertainment space for the commercial and hospitality industry. Appealing looks, easy assembly, all weather products, and reasonable prices make these Cabanas and Day Beds the choice of top rated Resorts around the world.

CONTRACT ALUMINUM FURNITURE
Powder Coating, Strap Colors, Sling Colors,
Fabric Colors, Product Specifications

SUNGASUAL takes great pride in all the products that it manufactures, the quality and workmanship reflect the final product. We strive in detail and perfection in every step we take to manufacture top quality products. Our reputation is reflected in the satisfaction of our customers, and our customers satisfaction is obtained by the level of our commitment.

In this section of our catalog everything is detailed for your convenience. This section is your final step to complete your choices. Due to the different color variations from the printing to the actual colors we can not be responsible for any color variations. If you need exact colors to match your décor please contact your sales rep or call our office to request a color palette. Please take time to review our product description, our company's policies, and our warranty.

Our exclusive Baked-On Electrostatic Powder Coating System is superior to any other contract or retail manufacturing company in the market. The computer controlled eight (8) stage non-chromate pretreatment system used in our process assures a durable bonding powder coating finish. Our UV-Resistant Polyester Series Powder is highly recommended for the marine environments and coastal regions. The Powder Coating treatment applied to every product we manufacture is backed by our 5 year warranty against Color Fading, Chalking Resistance and Peeling Resistance.

POWDER COATING COLOR CHART

AVM Manufactures High Quality Contract Furniture, and it is evident in the final appearance of the Powder Coating Process. We use only the best, SUPER-DURABLE high quality powder in the industry.

CONTRACT FURNITURE PRODUCT SPECIFICATIONS

CASUAL CONTRACT STRAP

CASUAL CONTRACT SLING

UPHOLSTERY FURNITURE

CONTRACT FEATURES

Frame: Our Maritime and Contract furniture are designed and manufactured using heavy marine grade aluminum tubing. Wall thickness from .062 to .125 are incorporated depending on the design. Every stress point in our furniture is supported with additional structural cross supports for reinforcement creating a durable frame.

Welds: We NOTCH or CHAMFER all adjoining parts for a perfect fit before weld is applied.

Full circumference weld is applied on all joins. Full welds provide a stronger solid and stable frame system enhancing and prolonging the life of the furniture.

Straps: AVM provides 2" wide by 1/8" thick 100% virgin vinyl straps with built-in mildew inhibitors and UV stabilizers.

Slings: AVM incorporated the very best in sling seating. Our slings are woven from PVC-coated polyester and engineered for use in sling furniture applications that demand extra strength and/or dimensional stability. These fabrics are antimicrobial, highly durable, mildew resistant, stain resistant, fade resistant and easily cleanable.

We sew our slings using double stitched on all pockets and use only commercial polyester threads to assure that the stitches can endure all stress areas of the sling.

No special tools are needed for sling replacement. Sling frame attachment bolts must be removed for sling replacement.

Hardware: All fastener and moving parts are made of 316 Stainless Steel for a long durable life. All assembly bolts are 1/4" not less. Additional nylon washers are used on all stainless steel bolts and nuts to prevent bi-metal contact.

Powder Coating Treatment: Our Powder Coating System has been modified for contract applications. We use the following process to protect our furniture and provide extendable warranty periods.

- > 8 Stage Electrostatic Powder Coated Treatment
- > Commercial (3) Step Cleaning Process
- > Non-Chromate Conversion Coating Surface Treatment
- > Super Durable Polyester Topcoat

This process is intended to assure that the powder is highly bonded to the aluminum surface providing Corrosion Protection and preventing Chalk, Chipping and Peeling when exposed to outdoor weather in a maritime environment.

Braces and Cross Supports: Extra Seat and Leg Support Braces are used in our contract and maritime frames for added rigidity. The extra braces prevent the frame and legs from bowing and breaking when increasing weight capacity.

Adjusting Mechanism: Heavy Duty welded adjuster frame is designed on all our furniture with different position settings for personal convenient choices by adjusting back angle.

Glides: Non-marking, protective poly glides or welded skid plates are found on all of our furniture. Contact nylon bumpers are used to protect the frame finish when stacking is required.

Anti-Pinch: Safety Bend on all Chaise Frames. The frame is offset on both sides of the adjustable back to prevent fingers or hand injuries when the back is inadvertently dropped. This safety feature reduces the liability and

CUSTOM CUSHIONS CONTRACT FEATURES

AVM manufactures commercial cushions for contract applications with unsurpassed performance,

Sunbrella Fabric (10 years limited warranty by the manufacturer)

Dri-Fast Flow-Thru Foam

100% Polyester protection inner liner (optional)

UV Resistant PTFE Sewing Threads

Hidden Marine Quality Zipper with Fold-Over Flaps

Reversible Cushion (optional)

Durable Fabric Ties

Variety of cushion styles are available

DRI-FAST Outdoor Foam

Primary use in outdoor furniture and marine seating due to its weatherproof design.

Dri-fast is a reticulated foam and a versatile material, primarily used for outdoors. Its large open pores allow it to dry very quickly, rather than absorb water, as most foams do.

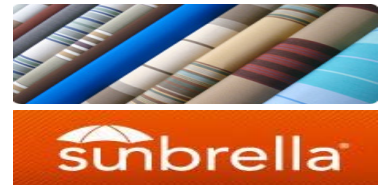

- > Sheds water
- > Rapid draining
- > Enhanced strength and durability
- > Antimicrobial

Dri-fast 33 is a 1.8 density and has a 30-36 AVM. medium soft

Dri-fast 50 is a 2.2 density and has a 65-75 AVM. extra firm.

Rev 5.0 8.18

All of our furniture is "Made in the USA" and meet or exceed American Commercial Grade furniture standards.
