

ACME METAL BED BASE

The patent-pending Acme Bed Base is a freestanding bed frame with mattress supports made of high-grade steel. We include support legs for maximum strength and stability.

Our engineers continue to perfect this product that saves time and money for hotels, motels, camps, and resorts.

- Easy to set-up. See our Acme Metal Bed Base Set Up How-To Video at www.acmemetalproducts.com or on YouTube
- Never lose anything under a bed or try to clean under a bed again
- High-quality steel ensures this bed base will last
- No more creaking and squeaking
